The coders school at Pacific Academy

- Hello everyone, my name is Alex
- How many people here like video games?
- How many people here have heard of scratch?
- Scratch is basically a platform to make games, so we will be learning how to essentially program a game.
- I want to get to know you guys, lets go around the room and I want you guys to tell me your name and your favorite video game
- Great I liked all of your answers, how many people here have heard of flappy bird?
- We will be start making the flappy bird game today.
- First, Tae and I will go around the room and create a scratch account for you all, in the mean while, you guys can hit create and start playing around with scratch.
